NEW AND IMPORTANT DISCOVERY IN THE SCIENCE OF MEDICINE.

TRIESEMAR.—None are genuine unless the engravings of the Seals of the Patent Office of England, the Seals of the Ecole de Pharmacie of Paris, and the Imperial College of Vienna, are fixed upon each wrapper, and around each case.

Sold by Dr. H. A. BARROW—Member of the Imperial College of Vienna, and Royal College of Surgeons, London, who may be personally consulted at his residence, No. 107 Prince Street, (few blocks West of Broadway) New York, from 11 o'clock in the morning till 2, and from 4 o'clock till 8 in the evening, (Sundays excepted.)

TRIESEMAR No. 1.—Is the remedy of general and local debility, loss of virile power, premature decay, and all the distressing consequences arising from early abuse, &c.; all pulmonic complaints vanish like magic before its influence, thus rendering its use invaluable to those entering the marriage state.

TRIESEMAR No. 2.—Entirely eradicates all traces of those disorders which copaiba and cubebs have so long been thought an antidote for to the ruin of the health of a vast portion of the population.

TRIESEMAR No. 3.—Is the great European remedy for that class of disorders which, unfortunately, the English physician treats with mercury to the inevitable destruction of the patient's constitution, and which all the Sarsaparilla in the world cannot remove.

TRIESEMAR Nos. 1, 2 and 3—are prepared in the form of a lozenge, devoid of taste or smell, and can be carried in the waistcoat-pocket. *Sold in tin cases and divided in separate doses, as administered* by Valpeau, Lallemand, Roux, Ricord, &c. &c. Price $3 each, or four cases in one for $9, which saves $3; and in 27 cases, whereby there is a saving of $5.

Special arrangements have been made with the various Expresses, the nine-dollar cases of the Triesemar, and the larger sizes, will be forwarded by Dr. Barrow, carriage paid, immediately on receiving a remittance, to any part of the world, securely packed, and addressed according to the instructions of the writer, thus securing to the patients entire European preparations, and effectually protecting them from spurious and pernicious imitations. The three dollar cases sent as usual, but not free of carriage.

### American Safety Paper

Manufacturing Company of N. Y.

Capital $500,000.

A. NICHOLAS, President. Office, 70 Wall-st

*A Perfect Security against the manner of Fraud or Counterfeiting on Paper—to Prevent Photographs and Anastatics Counterfeits, Erasures, Tamperings or Alterations.*

HAVING purchased the Patent for the exclusive right to manufacture and sell the Chemical Paper, in America, invented and patented in England by Bela Gaynor, a celebrated chemist and officer in the British army, it is hardly necessary to say that the Paper is recommended by Mr. Kent, Assayer of the U. S. Mint; Mr. Lyman of the New York Clearing House, and Meade, Brothers, extensive and skillful photographers, 235 Broadway, N. Y. The latter says that no Inflation can be made on a check or bank note printed on the Safety Paper. Below is our list of prices:

Bank Checks—35 cts. per lb.
Bank Bills—$18 for 1000 sheets.
Bills of Exchange—$25 for 1000 sheets.
Promissory Notes—40 cts. per lb.
Sight and Time Drafts—$35 for 1000 sheets.
Insurance Policies—40 cts. per lb.
Railroad Stocks and Bonds—40 cts. per lb.
Bank and State Stocks—40 cts. per lb.
Bonds and Mortgages—40 cts. per lb.
Wills and Deeds—40 cts. per lb.

For wrapping Silks and other fine articles it is excellent, as it prevents moths. 40 cts. a lb.

For Indentures and Agreements, 40 cts a lb.

All State and County Records should always be printed or written on this paper, as the chemicals inserted in the pulp not only prevents erasure or transfer, but makes it lasting as time.

For Southern climates it is excellent, and much superior to any other, as the tenderness of the climate does not destroy it,—the properties inserted in the pulp being a preservative. In all the Southern States, Cuba, the West Indies, and the Central American States, no public records can be kept over 20 years, written on the ordinary paper, while the oils and other chemicals inserted in this paper makes it indestructible by the ravages of time. It is also proof against moths, rats and other vermin, which feast on and destroy all other paper now in use.

The Company have now in operation Mills in Morris County, N. J., of about 200 horse power, and are able to fill all orders for Paper at the shortest notice.

All orders for the Paper must be addressed to ALONZO BARTLETT, President of the Company, No. 70 Wall street, New York.

### LINCOLN'S

WATER PROOF BLACKING,

AND LEATHER PRESERVATIVE.

*Keep your Feet dry and you will seldom need a Physician.*

IS it not a truth that when the feet are often wet, if it is one of the greatest causes of colds and consumption? It is a truth that when leather is often wet and chilled, it soon becomes hard, stiff, and cracks; but when this water-proof this is remedied. By the application of this preservative, it remains soft, and entirely impervious to water.

After being engaged for 25 years in the manufacture of Leather in all its branches, and being often troubled with wet feet myself, I was led to experimenting on different compositions, and found it easy to make it water-proof, but at the same time extremely injurious to the leather. At last by chemical process, I discovered a preparation which perfectly harmonizes with the astringent properties with which leather is tanned. It will not only make leather water-proof, but likewise softens the leather, and it will not injure it.

**Positively wear twice as long.**

I have now used it for three years, and a large part of that time have worked in a wet Tannery, with my boots constantly in water, and have not had my feet wet during that time. I can therefore in all confidence, recommend it to the public as the best article in the market.

PATENTED IN

America, England and France.

THE thorough and highly satisfactory trial of a large number of

CONE FURNACES,

in use during the last cold winter, has proved it an invaluable invention, which far surpasses all plans before known for the purposes of heating. The manner of heating, or keeping back the smoke and gases in a cluster of cones (or tapering radiators) before it is let into the flue, whereby the fuel is entirely consumed. The consequent *superabundance of heat*, and *great economy in power*, combined with simplicity and ease of management, and its *safety*, *durability* and *cheapness*, renders this a complete revolution in the science of house warming, &c., &c., &c. In the immense efforts made by persons whose pecuniary interests are being effected by it, a general cry is heard, "We are satisfied that all the information concerning the Cone Furnace, will not be likely to be any other than favorable."

This Furnace, has received the highest commendations from all, and especially from persons of the *greatest scientific knowledge* in such matters, it receiving the First Premium, as the only *perfect and safe Furnace in use in this State*, at the last Fair of the Massachusetts Mechanics' Association held in Boston. We have, as usual, a full assortment of Children's Vapor Stoves, Parlor Stoves, and Low Stoves, Cooking Ranges, Mantels, Grates, Registers, Ventilators, &c., and continue to give personal attention to erecting Furnaces, Ranges, and the ventilation of buildings in every part of the country.

THE LUXURY AND PROFIT OF

HONEY MAKING.

Torrey's Bee Hive.

THE subscriber, having purchased the right of manufacturing and selling *Davis' Patent Bee Hive* for the Counties of Penobscot, Lincoln and Aroostook, which has been received with so much favor, and taken the first premiums wherever exhibited, has introduced an improvement into the Bee Hive and is now prepared to make the same in connection with the Davis Platform, and to sell rights to towns and individuals.

This Bee Hive, thus improved, is admitted by persons acquainted with the honey-making business, to be superior to every thing yet invented for the purpose. It covers all the requisitions for the profitable maintenance of the apiary, by providing for ventilation at all seasons of the year—room for the exercise and feed of the bees—a convenience for the removal of excrement, for the proper separation of the swarms, and generally for the health and comfort of the workers.

The boxes used in this Hive for storing honey, are also the best adapted, in their size, for the market, holding from three to six pounds each.

The subscriber wishes to purchase one hundred swarms of bees in exchange for bee Hives and rights.

☞ For sale, fifty swarms of Bees, with the new hives.

## The New Manifestation of Democratic "Popular Sovereignty."

If any act of modern democracy could astonish the people, it would be superlatively the latest one on its political record. The deliberate slaughtering of popular sovereignty in Kansas, in the face of the most emphatic pledges embodied in the Kansas-Nebraska bill itself, as well as in the resolutions of the Cincinnati Convention, places the pro-slavery democracy before the people as the most faithless political party which has ever held the reins of government in this or any other country.—Its entire record upon the Kansas question has been one of unparalleled duplicity. The Missouri restriction against slavery was first assailed in order to open that great territory for Southern colonization—and it would thus have been colonized with Southern institutions, beyond redemption, but for the unexpected spirit of resistance aroused among the free people of the North, and the concentration for the first time of a large portion of the anti slavery strength by means of the Republican organization. To meet and modify if possible the just indignation which burst forth in view of the proposed outrage upon freedom, the leaders and the organs of the sham democracy declared that the party was only vindicating by that act the great principle of popular sovereignty; that they intended to leave the people of Kansas entirely free to adopt their own institutions. This was the defence offered for the contemplated crime of opening a territory to slavery which had once been solemnly dedicated to freedom.

It was no valid defence; but insufficient as it was, the democratic administrations and the democratic party have utterly failed to stand by it. It has been shamefully abandoned from the very outset. In no one instance have the people of Kansas been allowed the exercise of popular sovereignty. At the very first election, the voice of the people was utterly stifled, and a gross usurpation established in the Territory, by permission of the administration; and it has been maintained to this day by the aid of federal bayonets. The most atrocious outrages upon free State men were permitted for long months, without any exercise of federal power to prevent them or to punish the perpetrators; and now, forsooth, the organs are claiming immense credit for the administration because the ruffians no longer murder the people (they having become too numerous for that) but only swindle them out of their rights by the usurpation they have established.

Popular sovereignty has really been subverted from first to last in Kansas; but the party has heretofore pretended to maintain the principle, at least here at the North. But the time has now come when it is openly and shamelessly abandoned by the central organ under the eye of the President himself; and it will soon be abandoned by all the northern sub-organs, as openly and shamelessly as they abandoned the Wilmot Proviso at the command of the South. Some of the northern democratic papers have been indiscreet enough to condemn the action of the bogus Convention in refusing to submit their constitution to the people; but there can be no doubt they will soon be found stoutly defending that very act,—it being approved at Washington and hence declared to be National democracy. We have not yet forgotten how readily such papers as the Augusta Age relaxed from their expressed opposition to the repeal of the Missouri Compromise. The papers which have now condemned the act of forcing a constitution upon the people of Kansas, without a chance of voting against it, will not be obliged to make so short a turn as the President's organ has made. Four months ago, the Washington Union said:

*"Under these circumstances there can be no such thing as ascertaining clearly and without doubt the will of the people in any way except by their own direct expression of it at the polls. A constitution not subject to that test, no matter what it contains, will never be acknowledged by its opponents to be anything but a fraud.*

*We do most devoutly believe that, unless the constitution of Kansas be submitted to a direct vote of the people, the unhappy controversy which has heretofore raged in that Territory will be prolonged for an indefinite time to come."*

The bogus Convention declare that the people of Kansas shall not vote *against* the constitution prepared for them except upon one article—they may vote *for* but not against it—and the Washington Union now says that this Kansas schedule, *"gives full, practical and fair effect to the principle of popular sovereignty."*

The coolness of such an assertion is only equalled by its unblushing falsehood; but it will yet be swallowed by all the rabble organs as true and genuine democracy.

Some of the democratic papers have preserved a discreet silence thus far, relative to the non-submission of the new constitution. Among the rest, our neighbor seems not to have found time to announce its opinions upon the subject. Will not the Bangor Union oblige us with its views?—that is, if it can spare a moment from the discussion of the currency question.

[This morning's despatches state that the whole Cabinet sustains the swindle. It is "democratic," therefore to force upon the people a constitution which they do not want—and the Union may now safely speak.]

## LOCAL AND MAINE NEWS.

RAILROAD ARRANGEMENTS—CHANGE OF TIME.—On and after Monday next, (30th) the passenger train for the West, on the P. & K. Railroad, will leave at 7 A. M. instead of 7.40. The freight accommodation will leave at 1.30 P. M. The passenger train will arrive at 7 P. M., as heretofore.

THE RELIEF OF THE DESTITUTE.—There will be a meeting at the Central Church on Sunday (to-morrow) evening, at 7 o'clock. It is expected that the Rev. Mr. Dalton and other clergymen of the city will be present and address the meeting in behalf of the poor, stating the plan of operation which has been suggested for the relief of the sick and destitute during the inclement season which is fast approaching.

The recent cold weather filled our river with running ice, and unless a milder term supervenes navigation will be suspended within a day or two. There are about twenty vessels in this port—some of them being laid up here for the winter. [The weather moderated last night, with indications of a storm.]

PERSONAL. Hon. Cadwallader C. Washburn, member of Congress from Wisconsin, is now in the city—stopping at the Bangor House.

The constitutional candidates for election to the Senate, to fill the vacancy occasioned by the death of Hon. C. P. Chandler, of Piscataquis, are William Oaks, who received 1687 votes, and Andrew Wiggin who received 57 votes. Mr. Wiggin was run as an opposition bunker candidate to Mr. Oakes. There were but three other candidates voted for, receiving one vote each.

The Kennebec Journal learns that not more than half of the usual amount of lumber will be cut on the Kennebec waters the coming winter.

A RETAILER OF POISON.—A correspondent of the Belfast Journal cautions the public against a young man who recently visited that place, selling a recipe for making any kind of liquor out of alcohol. The process was by the injection of a few drops of poisonous acids, tinctured to flavor, into a large quantity of pure spirit. The villain declared, (how truthfully cannot be known,) that he had sold several recipes in that place at $10 each. Now, the injected fluid is simply poison and its dilution is all that prevents its killing instantaneously, just as opium or arsenic may be taken in small quantities. Oil of almonds, and of peach stones, strichnia, &c. more or less concentrated, are the ingredients which make brandy of alcohol.

A THIEF'S THANKSGIVING.—On Wednesday night last, the cellar of Mr. John McArthur's house, was entered and all the pastry which had been prepared for the approaching thanksgiving, carried off.—*Augusta Banner.*

Brig, L. P. Snow, of Orrington, Me, at New York from St. John, PR, reports 10th inst., lat 33, lon 72, in a gale from NE to NW, lost from the deck 42 casks molasses. 20th inst., off Fire Island, in a gale from WNW, split foretopsail, foresail, &c.

ROBBERY.—We learn that Mr. Charles Atkinson of this town, while stopping at the Franklin House, (Boston,) on his return home from the West, was robbed of some six hundred dollars in money. The facts, as we learn them are, that his money was locked up in his valise, and placed between the feather and straw beds—that he left the room, locking the door, and taking the key with him, was absent a short time. On his return, he found the door unlocked, his valise removed from the place where he had left it, which had been unlocked, the money taken out, and the valise locked up again. Mr. Atkinson was unable to find any trace of the money or the thief.—*Anson Advocate.*

An immense ratification meeting was held in New York on Wednesday evening, of the friends of Daniel F. Tiemann for the Mayoralty, including the combined opposition to Mayor Wood. It is represented as the largest political meeting ever held in New York—there being from 20,000 to 25,000 persons present.—Wood is repudiated by leading Democrats, like Daniel E. Sickles, John Van Buren, John McKeon, and others—and it really looks as if he might be defeated. If so, it will be a gratifying victory of law, order and decency, over the most villainous combination of scoundrelism that ever controlled the affairs of that great Sodom. It should never be forgotten, however, that Wood, notwithstanding he is the candidate of all the dregs of the city, is upheld as being the regular Democratic candidate, by the Democratic presses in and out of New York, and letters were sent to this ratification meeting by such men as ex-Governor Seymour, Governor Wise of Virginia, and others high in the ranks of the Democracy. The countenance and support of the party is given to him, notwithstanding the notoriously vile influences which effected his nomination, and the viler influences by which it is expected to elect him.

HARPER'S MAGAZINE.—The December number, commencing a new volume, was received in good season. It presents a first rate appearance and an excellent variety of matter. The first portion of this number is occupied by a "Christmas Garland of American Poems," each beautifully illustrated. Then comes "Madras in Pictures," an interesting and original article; then the "King Conquered," an illustrated article of Louis XIV, by J. S. C. Abbott. Then come several interesting and amusing articles, followed by the first instalment of Thackeray's new story, the "Virginians," with many humorous illustrations by the Author, and Charles Reade's new story "Jack of all Trades—a matter of fact Romance," written exclusively for Harper's Magazine.

As a whole, we think the present by far the most original and variously interesting number Harper has yet appeared.

## The Crime and Folly of Thos. Allibone. Cause of the Ruin of the Bank of Pennsylvania.

We extract the following from a letter in the Tribune, giving a full developement of the frauds and follies of the late President of the Bank of Pennsylvania:

Mr. Allibone was elected President of the Bank in 1853, by a movement among certain merchants who desired to get him out of trade.

He received a salary of $5,000. His family consisted of a wife and twelve children, and it might be supposed that his responsible charge would constitute a strong guarantee for prudence and fidelity in his new position. There is too much reason to believe that he was wholly insensible to its responsibilities. The dashing manner in which his own business had been conducted, by degrees became apparent in his management of the bank. At the same time his whole style of living became unjustifiably extravagant. The two last years of his incumbency afford melancholy evidence of folly in this respect, a folly that was either childish or criminal. His expenditure of money was lavish to a proverb. His residence cost him a very large sum. He kept up a separate country seat in New Jersey, drove a fine carriage, kept ten servants in his family, and lived at the most expensive watering places in the most expensive style. He was absurdly lavish of presents among his friends. To one he sent a handsome carriage, and he bought immense bills of jewelry for others.

The new bank building in Chestnut street is rapidly approaching completion. The folly of the man is shown conspicuously in that undertaking. He knew, if no one else did, that the bank was insolvent. Yet in the face of this knowledge he urged the erection of a building which would cost $250,000. There it stands, its elaborate granite front an enduring monument of his faithlessness and weakness. No cost seems to have been spared in its construction. Iron doors of splendid ornamental patterns, and on counter cast from patterns of elaborate design and workmanship, a huge vault of chilled iron plates, erected in the centre of the banking room, and covered with designs of high artistic beauty; frescoed ceilings, marble floors throughout, and everything in corresponding style, give evidence of the lavish waste of money stimulated by this man's insane prodigality. But in the decorations and appliances of his own private room in the bank his folly has run wild. Unknown to the building committee, he gave orders for furniture and decorations which more than doubled the whole cost of fitting up. Splendid sofas, lounges, a bath-room replete with every convenience, were the adjuncts of this luxurious parlor.

While this outlay was going on, the whole capital of the bank, amounting to $1,875,000, with a surplus of $400,000, had been utterly sunk. Strange as it may seem, the Directors appear to have been studiously kept in ignorance of this fact. The state of the bank, as laid before them weekly by the President, was shown to be sound, and no evidence has been produced to show that a single member of the Board entertained the least suspicion of the wholesale frauds upon its funds. Their confidence in the integrity of the President grew out of long business acquaintance with him, and they were men of fortune. This confidence remained unshaken up to the hour of his ignominious flight. As he had shammed religion, so had he shammed sickness, and in both cases the cheat was successful. For days together his fastest friends among the Directors pleaded with him to change his purpose of going to Europe into a retirement at his beautiful country seat on the edge of the New Jersey Pines, there to remain in quiet seclusion until the embarrassments of the bank were removed, and to assist in that removal by his explanations and advice. His intimate friend, Bishop Potter, offered to accompany him if he would delay his departure for a fortnight. But no friendly entreaty could avail, and, horrified by the consequences of the rapidly impending discovery, he sailed for Europe with his wife and daughters, both unconscious of the real cause of his voyage, the former leaving a baby six months old, and he leaving the bank a helpless wreck.

Immediately after his departure, the Directors succeeded in ascertaining the cause of the ruin. They were thunderstruck at the deliberate, systematic, skillful and long continued falsification of the books and accounts. Any Board of Directors in the world would have been deceived by the skillful figuring of this man, even in the absence of that entire confidence which they placed in his integrity. A private loan-book, kept in the private desk of the President, and now first brought to the knowledge of the Board, reveals astonishing facts. Men who never borrowed a dollar are here charged as being large debtors to the bank. Others who had borrowed, on being sent for and payment demanded, produce evidence that they have refunded the loans. Envelopes, indorsed as containing valuable securities, on being opened are found to have the securities abstracted, and mere memoranda, technically known as "ghosts," occupying their place.

Apart from the consideration of this enormous fraud is the consideration of its results to the innocent and confiding stockholders.—They are scattered everywhere over the country. It had been for many years under the management of members of the Society of Friends, and this circumstance attracted numerous women, trustees for orphans, for charitable institutions, churches and schools, to purchase its stock as a safe investment. The dividend was 10 per cent per annum. Even the Mormon churches invested their money in it. Some of these stockholders have great stakes at risk, varying from 100 up to 700 shares. Some families, composed wholly of females, have their all in the stock, while others are only measurably impoverished by the loss.

The Catalogue of HAMPDEN ACADEMY, for 1857, (for a copy of which we thank Rev. J. K. Mason, the Secretary,) shows a gratifying state of prosperity in that excellent institution—a fact which intimates plainly the ability of its managers and teachers to fulfil their duties to the profit and satisfaction of the pupils and their friends. The course of study marked out is judicious. The Female Department has been very successful, and is well sustained.—The whole number of pupils during the year has been 298—males 184, females 114.

Congress meets on the first Monday of December, the 7th. The prominent names mentioned in connection with the speakership of the House are those of Col. Orr, of South Carolina, John S. Phelps, of Missouri, and J. Glancy Jones, of Pennsylvania.

Sugar is selling in the New Orleans market at 4½ cents per pound, and molasses of from 18 to 20 cents per gallon.

One or two articles from correspondents are necessarily postponed for a day or two.

The Capital building at Washington cost originally three millions of dollars. It is said that the improvements now making in it will cost seven millions more. What pretty beauties it is with the ornaments? None to the [illegible] but [illegible] contractors, [illegible] of the government [illegible].

WHO ARE ARISTOCRATS? Twenty years ago this one made candles, that one sold cheese and butter, another butchered, a fourth carried on a distillery, another was a contractor on canals, others were merchants and mechanics. They are acquainted with both ends of society, as their children will be after them—though it will not do to say so out loud.—Death brings a division of property, and it brings new financiers. The old gent is discharged. The young gent takes his revenues and begins to travel—towards poverty, which he reaches before death, or his children do if he does not. So that in fact though there is a sort of monoyed race, it is not hereditary; it is accessible to all. Three good seasons of cotton will send a generation of men up—a score of years will bring them all down, and send their children to labor. The father grubs and grows rich—his children strut and use the money. The children in turn inherit the pride and go to shiftless poverty. Next, their children, reinvigorated by fresh plebeian blood, and by the smell of the clod, come up again.

A LARGE BANK CHECK.—The New York Commercial Advertiser, of Tuesday evening, gives the following notice of a bank check:

"We saw the largest check this morning that we have ever met with in our Wall street experience. It was for $1,320,485.30, drawn by the New York Life and Trust Company, and certified by the Bank of America, payable in current funds to the order of J. A. Palmer, receiver, of the North American Trust and Banking Company. It represents the moneys of that bankrupt institution, which have been paid into the Trust Company, principally in small sums, during the last seventeen years, and have been accumulating at compound interest during that time until the final disposition of the law proceedings has enabled the receiver to draw out the amount, to pay the sums over to the rightful owners."

AMERICAN COMMERCE IN TURKEY.—We make the following extract from a Constantinople letter in the New York Evening Post:

"American commerce continues to increase with this place. Large quantities of American furniture is being brought out for sale.—American carriages, and especially harnesses, sell well here. The furniture, however, is of an inferior quality, whilst good mahogany settees and sets of chairs would command an immediate sale. It has already a high reputation in Constantinople. Large quantities of Yankee stoves are in the market and sell well. American rum and brandy (!) of the most villainous kind are imported by shiploads, and sold for the benefit of the wretched. Intemperance is fast taking hold of the higher, even more than the lower classes, and the poison imbibed is generally the aforesaid rum, sometimes converted into bakki.

PAYING TOLL.—"The principal avenue of our city," writes a learned friend in Detroit, "has a toll-gate just by the Elmwood Cemetery road. As the Cemetery had been laid out some time previous to the construction of the plank road, it was made one of the conditions of the company's charter that all funeral processions should go back and forth *free.*—One day, as Dr. Price, a celebrated physician, stepped to pay his toll, he remarked to the gate-keeper,

"Considering the benevolent character of our profession, I think you ought to let us pass free of charge."

"No, no, doctor," the keeper readily replied, "we couldn't afford that. You send too many *dead heads* through here as it is."

The doctor paid his toll, and never asked any favor after that.

ARE WE TO HAVE A HARD WINTER?—The Chicago Tribune says that in that region, the knowing ones are prophesying a mild winter. The corn husks are said to be remarkably thin, a sure sign, in the rural districts, that the winter will not be severe. A friend at our elbow assures us that observation, continued during a series of years, led him to a full belief in the reliability of this indication.

BURNED TO DEATH.—*Malone, N. Y., Nov 25.* Father McCabe, a Catholic priest, in this town, was burned to death in his bed last night; caused by the bed clothes taking fire. The fire was entirely confined to the room in which the deceased lodged, and it was not until everything combustible in the room was consumed that he was discovered by another priest.

TO THE DAILY WHIG AND COURIER

### Gov. Walker's Views.

WASHINGTON, 27th.

Gov. Walker openly declares himself opposed to the action of the Lecompton convention. He says the only proper course is to submit the whole constitution to the people. He had an interview with the President to-day on the subject. Mr Buchanan, as at present advised, is inclined to sustain the Convention.

Advices from Chicago state that Senator Douglas agrees with Gov. Walker, and will oppose the Lecompton constitution in the Senate.

The Star is informed that the English and French governments have protested, through their Ministers here, against Walker's second expedition to Central America.

*Second Despatch.* As far as can be ascertained the cabinet are united in sustaining the action of the Kansas constitutional convention, whatever preference there may have been for submitting the entire constitution to the people, it is understood that all are agreed that the mode proposed to the inhabitants to act on the question of slavery is one of their instructions for themselves, is in accordance with the letter and spirit of the Kansas-Nebraska act.

Gov. Walker has had another long interview with the President on the subject of Kansas affairs, and they have also fully occupied a large share of cabinet deliberation.

No arrangements have yet been made in regard to the transmission of the President's Message in advance of its delivery. It is probable however, that the press will be supplied by the means heretofore adopted.

The reports of the heads of departments are in a sufficient state of forwardness for copying.

### The Steamer Sanford Case.

BOSTON, Nov. 27.

In the Municipal Court, to-day, the Captain and owners of the steamer Menemon Sanford were put on trial on a charge of manslaughter by reason of negligence in not endeavoring to save the life of Mr. Allen Frazier of Orland, Me., who fell overboard from their steamer on the night of the 10th of Sept., 1856, and was drowned. The trial will probably occupy several days.

The Methodist Church on Harvard St. Cambridge, (Rev Mr Smith) was destroyed by fire the night. Loss $8000.

COLUMBIA, S. C., Nov. 27.

On the first ballot to-day, for U.S. Senator, in the Legislature, John S. Preston received 74 votes, James S. Clemente 23, Mr. Pickens 13, Mr. Hammond 61.

No adjournment took place without an election being made.

ALBANY, 6 P. M., Nov. 27.

The weather for the past 24 hours has been very moderate. Advices from points west, between here and Rochester, state that every effort is being made to break the ice and move the boats east. If the present weather continues it is of the produce between here and Rochester will get through.

BUFFALO, 27th.

Weather milder, and vessels again arriving and starting.

PROVIDENCE, 27th.

Weekly statement of Rhode Island banks in Providence, Nov. 23: Circulation $1,-10,100; deposits $760,000 02; $7,834,619; specie $127,521.

### New York Markets.

NEW YORK, Nov 27.

Flour, a good demand at, better prices—sales to a retail State 4,05 a 6,00; City Lake 5,90 a 6,50; common to good Ohio 5 35 a 5,80; extra Ohio 5,70 a 7,00; Southern steady with good demand—Mixed to good 5,30 a 5,60; fancy and extra 5,65 a 7,00; Canadian—extra 5,70 a 6,50.

Wheat a shade easier, but not quotably lower under large receipts.

Corn firm—State and Western 57 a 61

Corn firmer—mixed Western 87 a 88; yellow Southern 90.

Pork quiet—Mess 16,25 for old; 16,00 for new; prime 10,50 a 17,00.

Beef heavy—country mess 9,00 a 10,00; prime 6,50 a 7,00; repacked Chicago 10,00 a 12,00; prime mess 23,00 a 23,50.

Coffee—Rio 9 a 10.

Sugar steady.

Freights to Liverpool nothing doing.

The burglars are attempting an extensive business in Portland. On Wednesday night the store of J. & D. W. True, Commercial St., was entered and an abortive attempt made to open the safe. The next store, that of Waldron & Co., was also entered, but nothing obtained. The same night the store of John Lynch & Co., on the same street, was broken open, but the rascals were frightened off by a dog. The store of Conner & Moulton, head of Custom House wharf, was also opened, and some change taken from the drawer. And, to wind up the list, the store of J. Gilman was attempted to be opened with some kind of an iron bar—but the rogues were frightened off. Their object appeared to be money. They wouldn't take goods, even at reduced prices.

The house and barn of John Mitchell, of Ellsworth, with all his furniture and his crop of hay and grain, were destroyed by fire, on the 23d. The family were absent.

The house of Capt. Samuel Alley, of Ellsworth, with most of its contents, was burned on Wednesday night.

Hon. James G. Birney, formerly the Presidential candidate of the Liberty Party, died at Eaglewood, N. J on the 24th.

Doctor, I am in a dreadful state, I can't neither lay nor sit, what shall I do? Why, then, replied the doctor, very gravely, I think you had better roost.

## P. K.

By Extract of a letter received from Hon. H. C. Thomas, Tarry Town, N. Y.

Messrs. P. Davis & Son. Dear Sirs—The Kennebec boat became acquainted with your medicine and have desired for it to me very surprising. I have now by the means for more than fifty bottles; I therefore wish you to send me a quantity, and I will pay you through the Treasurer of the Missionary Union. There is no medicine which contains so high in the estimation of the Karens of these provinces as your Pain Killer, and I feel willing to gratify them, as I entertain a very high opinion of its worth.

Messrs. Perry Davis & Son:—I find it necessary to address you again as my most sanguine expectations have been more than realized. The call for your valuable medicine increasing so very rapidly that I fear I shall not be able to keep pace with it. My object in writing now is to beg that on receipt of this you will kindly despatch another batch as ordered in my letter of June last. I hope I will not be entirely out before your first shipment reaches me, of which, however, I have not yet heard from you. Yours sincerely,

### Removal.

### E. F. PLAISTED, M. D.

### Physician and Surgeon,

Has removed his Residence and Office to Hammond Street, nearly opposite the Hammond Street Church, where he may be found at all times, unless otherwise professionally engaged.

Dr. P. will continue to pay particular attention to diseases of the Chest, those of the Throat and Heart. Two years almost exclusive attention given to those diseases, under the most eminent German physicians in Philadelphia, and the thorough knowledge of the use of Auscultation and Percussion, enables him to detect the slightest deviation in those organs from their healthy condition.

From a experience and success in the treatment of Lung difficulties, especially, give great confidence in the ability to give an immediate satisfaction to all who may request his services.

Patients coming from a distance, wishing to remain any length of time under his care, can be accommodated with apartments at his residence.

### THE $15

### DOUBLE LOCK STITCH

### Family Sewing Machines

AT THE BANGOR HOUSE.

THE Citizens of Bangor and vicinity are respectfully invited to call at, Parlor, No. 26, Bangor House, to witness the operation of these truly wonderful Family Sewing Machines. They sew with two threads, making the double lock-stitch; the finest, strongest, and most durable seam made by the aid of machinery. They are the most simple in their construction, the most sure and certain in their operation, and the least liable to get out of order of any Sewing Machine yet produced; and unlike most of the high priced Machines, they are valuable for all kinds of Family Sewing, working equally well on the finest muslin or the heaviest piece of cloth.

The price, $15, places them within the means of all, the indigent as well as the affluent.

Orders for the Machines will be received at the Bangor House, from all who may wish to purchase them, where also County and State rights, for the exclusive sale of the same, may be secured on liberal terms. O. P. PRALL,

nov19 tf General Agent.

P. S. There are three sizes of the above Machines, bearing prices as follows, $15, $20 and $25. Tables $5 extra. The Machines can be had without the table.

### IMPORTANT DISCOVERY.

*CONSUMPTION CURABLE*

BY THE USE OF

### FOUSEL'S PABULUM VITÆ!

The most powerful and effectual remedy ever discovered for the treatment of PULMONARY CONSUMPTION!

This medicine is a choice combination of Vegetable products, and possesses all the rare medicinal properties to long and eagerly sought for by the profession. It is the result of diligent study and research through a long series of years, and is now, for the first time, presented to the notice of the public.

In many cases of so-called PULMONARY CONSUMPTION, where it has been tried it has proved, beyond any doubt, to be an EFFECTUAL REMEDY. It is a very agreeable and pleasant medicine, and a trial of its virtues is earnestly recommended to every person who has a cough, or what may be pronounced to Consumption, as a remedy of no ordinary value, with the assurance that, if the directions which accompany it are faithfully adhered to, it will prove to be a SOVEREIGN BALM, restoring the healthy functions to all the organs of the body.

Directions in English, French, and German, accompany each package. Price $1 per bottle.

All orders by mail or express, accompanied by the money, will be promptly attended to.

F. J. LAMORE, Sole Agent,
Office No. 5 Milk street,
(Opposite the Old South Church,)
Boston, Mass.

N. B. A Treatise upon the *Nature, Causes, Symptoms, and Prevention of Pulmonary Consumption,* will be sent on application at the office of the Agent, as above, or will be sent by mail to any address. This Treatise will well repay a perusal. nov26 67 dly 3p

## FLOUR,

## Wheat Meal & Shorts.

The subscriber has commenced manufacturing FLOUR in one of the best Wheat growing sections of the West. His purchases of wheat are made by agents going among the farmers and selecting the choicest parcels of *White Winter Wheat,* for which an extra price is paid, rejecting all other kinds and all ordinary qualities. Attached to his Mill are all the latest improvements. The Wheat is thoroughly cleansed before grinding, and the Flour is double bolted before packing. The whole contents of the Wheat are transported to Bangor by Railroad, in Flour, of four different qualities, in unbolted wheat meal, and in shorts A car load, 100 Bbls, will arrive weekly, so that customers can be supplied at all times with Flour and Meal, fresh ground within ten days. The meal is in bags, consequently not injured by packing 153 lbs. in a barrel as is the usual practice. This Flour and Meal will be found to have the fresh flavor of pure new Wheat, not having been heated in large piles or in vessels, as is the case with nearly all the Wheat manufactured in the large establishments for the large markets.

Dealers can be accommodated with a weekly supply on favorable terms, upon application to the subscriber, Office No. 27 West Market Place.

### COAL

MacGregor's Ventilating and Gas Burning

### STOVES.

THE reputation which this Stove has attained in the United States during the past six years, is a sufficient guarantee of its character as a complete Philosophical Mechanism, superior to either Hot Water or Steam, because of its simplicity, its easy management and control, and more especially its economy and the mild and healthy atmosphere it generates and diffuses.

The heat is thrown into the large cylinder drum of the air chamber, and thus does not become so heated as to burn or destroy the oxygen of the atmosphere. They can be regulated so to give any degree of heat required; and unlike other Anthracite Coal burners, ventilate the apartments quite as thoroughly as a wood fire or open Franklin.

*It may be continued from one to three days without replenishing,* and for most parts without any dust or requiring the use of charcoal or wood to re-kindle.

10 pounds of coal has been found sufficient to warm a common sized apartment twenty-four hours in the coldest weather.

## STEAMERS.

### California Steamers,

**Carrying the United States Mail.**

5th and 20th of each month.

Greatly Reduced Prices. 50 lbs. Baggage Free.

*Through Tickets, including transit of the Isthmus, via. Panama R. R.*

By order of the Postmaster General, the United States Mail Steamers will hereafter be despatched from New York direct to Aspinwall, on the 5th and 20th of each month.

Passengers are landed at the Railroad Depot, Aspinwall, and conveyed across to the Pacific Steamers *without any extra expense.* This is the *only* line giving entire Through Tickets, including *meals,* on the Isthmus.

Transit made in *four hours, entirely by daylight,* thus avoiding the great exposure by night in open boats to fever and ague, and 200 miles of dangerous lake, and river, navigation over rocks and shoals.

Arrangements have now been completed so that the regular U. S. Pacific Mail Steamer will leave Panama for San Francisco immediately on arrival of the Atlantic Mails and passengers, thus securing passengers by the Mail Line a *sure* and *short* passage, without any detention on the Isthmus.

☞ *Tickets must be signed by one of the Company's Agents before they will be recognized by the Agent at Panama,* and tickets thus signed can be obtained of the *only authorized Agent* for the Atlantic and Pacific Mail Steamship Companies in this city. ### Alpine Hair Balm,

—FOR—

Restoring Gray Hair to its Original Color

WARRANTED to cure Baldness, Scurf, Dandruff, Itching, and all diseases of the skin. This Balm gives the scalp a new and healthy action; restores the coloring matter to the roots of the Hair, which passes through the hair and gives it a natural color without the use of Hair Dye.

Hundreds of preparations have been introduced, pretending to preserve the Hair and keep it from falling off, composed of Oils, Alcohol, and other deleterious materials, and all to no use. Hair dyes have been introduced that do not give the Hair a natural color, besides being troublesome to use. This Balm is not a Dye. Knowing that a preparation was needed to do what was required for the Hair, the proprietor was induced to experiment until he could obtain an article that would be the exact remedy, and after seven years trial has perfected this Balm. It is soothing and emollient, allays all irritation of the scalp, thereby stopping that troublesome itching. It cures Dandruff, and Scurf, and when the hair has turned gray it will bring it back to its original color, be it Black, Brown or Auburn. It makes the Hair soft and glossy, prevents it from falling off as will be seen upon using this Balm for only a few days—Hair will be given to the roots of the Hair, and growth will soon appear. Growth does not take place at the end of the Hair, as will be seen in persons who have had their hair cut. If you examine gray hair that has been colored for a week, you will find, towards the root that the hair has come out gray, hence it is necessary to have the fluid at the roots of the hair healthy, that the whole Hair may be a natural color. Each hair has a root in the skin, and is of itself a hollow, gray tube, thro' which there is a constant circulation of the pigment from the root. When this pigment or coloring matter dies out, it leaves the hair hollow, and it becomes gray. To invent a Balm that would produce this pigment has become the study of the proprietor. The discovery of the Alpine Hair Balm will do it. It will bring the hair to its natural color by making known the coloring matter in the roots of the hair.

It is a mistaken notion that oil or grease will restore the hair, as nothing can be more injurious. The Alpine Hair Balm will restore the skin and save the hair of those who have been sick with fever or any other disease.

### DR PETTIT'S CANKER BALSAM!

*To be Valued needs but to be Known.*

## DR. SANFORD'S INVIGORATOR, or Liver Remedy.

THIS IS ONE OF THE GREATEST SCIENTIFIC Medical discoveries ever made, and is daily working cures almost too great to believe. It cures as if by magic, *even the first dose* giving benefit, and seldom more than one bottle is required to cure any kind of *Liver Complaint,* from the worst Jaundice or Dyspepsia to a common headache all of which are the result of a *Diseased Liver.*

The Liver is one of the principal regulators of the human body, and when it performs its functions well the powers of the system are fully developed. The stomach is almost entirely dependent on the healthy action of the Liver for the proper performance of its functions. When the stomach is at fault the bowels are at fault, and the whole system suffers in consequence of one organ—the Liver—having ceased to do its duty. For the diseases of that organ one of the proprietors has made it his study, in a practice of more than twenty years, to find some remedy wherewith to counteract the many derangements to which it is liable.

To prove that this remedy is at last found, any person troubled with Liver Complaint in any of its forms, has but to try a bottle, and conviction is certain.

A compound has been formed by dissolving gums and extracting that part which is soluble for the active virtues of the medicine. These gums remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, purifying the blood, giving tone and health to the whole machinery, removing the causes of the disease, and effecting a radical cure without any of the disagreeable effects felt by using Calomel or Mineral Poison, that are usually resorted to.

To all who will follow there directions a cure is positively guaranteed. Sick Headache can be cured by the use of two teaspoonsful, taken as soon as the attack is felt.

The Invigorator never fails to cure sour stomach or the bad effects experienced after eating.

Billious attacks yield readily to one bottle, and Chronic Diarrhœa, difficult as it is to cure, is never troublesome to those who take the Invigorator.

For Dyspepsia or Jaundice, nothing in the known world acts so fully or cures so quickly as the Invigorator. It removes all yellowness and unnatural color from the skin.

For Night Mare, take a dose before retiring, and it is warranted a sure preventive.

For Female Obstructions it is a safe and sure remedy, as it removes the cause of the disease.

Costiveness cannot exist where the Invigorator is freely taken, while Cholera yields readily to a few doses.

It must be known that all there are *Liver* diseases, or caused by a deranged *Liver,* and to cure them needs a LIVER medicine, one of great power.—The Invigorator is such a medicine; it has medicinal powers, never before discovered, that will cure all diseases of the *Liver,* no matter of how long standing, or what may be their form. The active medicinal virtues extracted from the gums used is such as to be astonishing to all who see their effects, for none can use the medicine without receiving benefit. It acts as a gentle cathartic, and should always be taken in sufficient quantities to operate on the bowels gently. The best way to take it is to take the medicine in the mouth, then take some water and swallow both together. In this way the medicine will scarcely be tasted.

### American & Foreign Patents.

**Solicitor of Patents,**

(*Late Agent of U. S. Patent Office, Washington, under Act of 1837,*)

76 State Street, opposite Kilby-st.,

*BOSTON.*

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same.—Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber, during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of Patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor for procuring patents.—There were few, if any, persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

### Dr. Wesley Grindle's CELEBRATED MAGIC COMPOUND,

—THE GREAT—

**Remedy for Pulmonary Consumption.**

*Also, an effectual cure for Scrofula, Dyspepsia, Obstinate Cutaneous Eruptions, Chronic Rheumatism, Bilious Disorders, General Debility, and all diseases depending on a impure state of the blood.*

THIS WONDERFUL REMEDY has done more to alleviate human suffering than all other means put together. It has the greatest sale of any medicine in the world for *Pulmonary Complaints,* from Maine to the most retired dwellings of Oregon or wherever Consumption is known, it finds its way, carrying health and joy into thousands of families. The most eminent physicians have been forced to acknowledge that it *does* cure consumption, and they now use it in their practice as a standard and sure remedy.

There is no remedy equal to it in building up a system, that under the influence of various diseases, hardships, or exposures, has run down or lost its natural tone and vigor. Its great secret is in its power to reach the blood, correct the vitiated fluids, and arrest the deposit of tubercle in the lungs; and it is as *safe* as it is *certain,* in its action.

Some poor sufferer, full of anxiety and doubt in regard to what we say, may ask. Can your medicine restore a portion of lung that disease has entirely destroyed, leaving a cavity? We answer, certainly not, neither is this necessary in order to effect a perfect cure. If the treatment be commenced in season, but little or no portion of the lung is lost. It is necessary only to *arrest* the disease, and when this is done, the concrete substance deposited in the tissues of the lung, technically known as tubercle, becomes absorbed, leaving, perhaps, a little calcareous substance which is quite harmless, and the patient finds himself in possession of whole lungs and sound health. But suppose the disease is not arrested at this early stage. The softened tubercle produces irritation; the irritation brings on inflammation of that part of the lung; the inflammation leads to ulceration, and the destruction of a portion of the tissue, is the result; a cavity is formed which enlarges and does its work of death, unless the deposit of tubercle is arrested. Now, does your remedy effect a cure? *Most assuredly it does.* As soon as the disease is arrested, the hurtful matter is absorbed or expectorated; and nature, either furnishes the cavity with a lining membrane, or what is more common, where it is of large size, the walls fall together and heal up, leaving a scar and the remaining portion of the respiratory apparatus, true to allow running through, the whole physical economy, becomes somewhat enlarged, takes on increased action, and suitably compensates for that which has been lost.

*Price*.—One box $3,00; three boxes, ordered at one time, $8,00; half dozen, $14,00; one dozen, or any number greater, at the rate of $2,00 a box.

The postage in the United States not over 3000 miles, is fifteen cents a box; over 3000 miles, fifty cents a box. In all cases the amount should be inclosed in money or stamps. I am responsible for all money sent me by mail.

## GRINDLE'S ANCIENT AND CELEBRATED

### JAPANESE LIFE PILLS.

**NATURE'S OWN REMEDY.**

*A positive Cure for Liver Complaint and Bilious Disorders, Dyspepsia, Rheumatism, Scrofula, Cutaneous Diseases, Fever and Ague, Costiveness, Dysentery and Diarrhœa, Worms, Suppression of the Menses, Nervous Debility, &c.*

FOR a long time we have been compelled to witness with painful emotion the many adulterated and life destroying drugs made into pills and liquid medicines, and patients using them without knowing their injurious effects upon their system. This *monstrous evil* may now be entirely escaped by using only these ANCIENT JAPANESE LIFE PILLS and our MAGIC COMPOUND. For many years we have studied hard to find a cathartic which, while it purged, would *throw out disease,* and not *mere secretions alone;* would *renovate and strengthen,* and not *deplete and weaken the system.*

We now unhesitatingly say, that this so much sought for remedy—a cathartic of mild and pleasant operation, actually throwing out *disease* and not mere *secretions,* thoroughly purifying the blood, and *immediately* strengthening the system—has been found. They will not only relieve but *positively cure* every disease for which they are recommended. These Pills have stood the test of the ingenious Japanese Faculty for centuries, and the same kind of ingredients that composed the Pills at that ancient time are continued to the present day.

No medicine except our MAGIC COMPOUND ever met with such unbounded success in so short a time, and the thousands of orders pouring in for them from all parts of the country is wonderful and astonishing. The number of these Pills being used by females alone for their various complaints, constitutes in itself an immense trade.—They are not the *"female pills"* so much puffed into public notice, which, instead of curing, produce cruel and dangerous complaints, but are for male or female, old or young, and cure by acting directly on disease.

The PILLS are sent by mail, from the Proprietor only, on receipt of the price. The postage in the United States, not over 3000 miles, is fifteen cents on five boxes, which must be inclosed in money or stamps. We are responsible for all moneys sent us by mail.

### TREMONT MILLS.

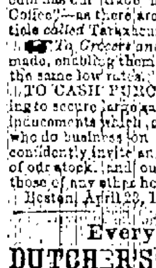
**Teas, Coffees, Chocolates, Cocoas, Spices, &c.**

WHOLESALE—AND ALSO IN SMALL PACKAGES.

E. E. DYER & CO.,

(Sign of the Chinaman grinding Coffee,)

*No. 8 Broad, near State Street,* ...... *Boston.*



Supply the best, finest and purest articles, at the *lowest Cash prices.* Their Stock consists of

Teas, Coffees, Chocolates, All-spice, Pepper, Mustard, Ginger, Cayenne Pepper, Nutmegs, Cinnamon, Cloves, Cream Tartar, Taraxacum or Prepared Dandelion Root, &c.

Having every facility for manufacturing and preparing the several articles named, the public may rely on having them *pure* and *genuine,* as they are put up carefully, and bear our name and label "TREMONT MILLS, E. E. DYER & CO." To give consumers some idea of our sales we annex the following scale of prices, viz:

| | | | |
|---|---|---|---|
| 5lb. Souchong Tea, | 1,75 | 5lb. Mocha Coffee | 1,10 |
| 5lb. Oolong Tea, | 2,00 | 5lb. Java Coffee | 1,00 |
| 5lb. Y. Hyson Tea | 2,50 | 8lb. good Coffee, | 1,00 |

☞ The Spices are put up in ¼ and ½ lb. tin cases, expressly for family use, and are warranted to be strictly a pure article, and only need a trial to establish them in public favor.

SPANISH COFFEE.—We would call the attention of consumers and dealers to our *Spanish Coffee,* as an article which is highly esteemed, and gives the greatest satisfaction. It is prepared with particular care, and by a peculiar process in roasting, one pound of this coffee, it is believed, is equal to 1½ lbs. of any other.

DANDELION COFFEE.—This article is carefully prepared at our mills, and put up in packages having our trade mark, and may be relied upon, as the best and most approved mixture of dandelion and coffee.

TARAXACUM, or *Prepared Dandelion Root.* This article is prepared and roasted at our Mills, is retailed by Family Grocers generally in city and country, and bearing our trade mark, *"Chinaman grinding coffee,"* may be relied upon as the *genuine article.* The proportion used is about one half the quantity of coffee. The price is 20 cents per pound, and it is warranted to be the same as that which has been sold for fifty cents a pound by druggists.

The medical properties of Dandelion are well known, and held in high estimation by all who use it. This being a preparation of the root, with all its medicinal virtues retained, can be mixed with coffee or used as best suits the taste, and will be found cheap and economical as a family beverage, one pound of which being nearly equal to two pounds of coffee. It is prescribed by many eminent physicians, to invalids, children and aged persons, as a nutritious beverage, and as a remedy for Dyspepsia, Bilious affections, &c.

☞ Be careful to observe that all our Taraxacum has our trade mark—"Chinaman Grinding Coffee"—as there are many imitations of our article called Taraxacum in the market.

☞ *To Grocers and Dealers* a liberal discount is made, enabling them to supply their customers at the same low rates.

TO CASH PURCHASERS.—Our object being to secure large sales at small profits, we offer inducements which cannot be afforded by those who do business on the credit system; and we confidently invite an examination of the *quality* of our stock, and our prices, as compared with those of any other house.

GODEY'S LADY'S BOOK, Peterson's, Graham's, Arthur's, and Ballou's Magazines, at A. BARTLETT'S.

## DR. SANFORD'S INVIGORATOR, OR LIVER REMEDY!

HAS ALL THE GOOD QUALITIES OF A Purgative Medicine, answering the purpose of any cathartic without the debilitating effects experienced from most purgatives. It acts slowly and gently, but surely, moving the bowels to carry off all the secreted matter, at the same time stimulating the Liver to a proper performance of its functions.

The Invigorator cures Sick Headache. Take one or two teaspoonful at the first attack, and it will soon disappear. For an overloaded stomach, or when food rises or sours, take the Invigorator after eating, and it will prove disagreeable or oppressive. For Heart-burn, Palpitation, or Difficult breathing, take a teaspoonful once or twice daily. For Loss of Appetite, Languor, or Listlessness, the medicine is invaluable. It will invite the appetite and make the food digest well. Ninety, like a teaspoonful on retiring, and the Nightmare and dreams-find will not be fallen. After eating a hearty dinner, take a dose of Invigorator, and it will relieve all uneasiness or fullness. The Invigorator is a Liver Remedy of unequalled virtue, acting directly on that organ curing Dyspepsia, Jaundice, Bilious Attacks, Dysentery, Piles, Worms, and all Female Obstructions, for which it has no equal.

We know there is nothing now before the American public, prepared with such skill by medical men, particularly for diseases of the Liver, as Dr. Sanford's Invigorator, or Liver Remedy. It has attained a reputation second to no other article in the world, simply because it rests on its own merit. To convince you that it is all that its proprietors claim it to be, if any of our readers are suffering from any such diseases as are described in Dr. Sanford's advertisement, we know of no remedy that will so surely cure them as the Invigorator.

There has lately been brought to our notice a medicine that seems to possess wonderful curative and healing properties in Diseases of the Liver, Stomach and Digestive organs. It came to us with so many testimonials in its favor that we have noted its effects in some of the worst cases of continual debility, caused by deranged liver, and in every instance the effect was to relieve or give a permanent cure. Dr. Sanford's Liver Invigorator is what we refer to. We always have been cautious about cures by patent medicines, but we are convinced that this medicine, for family use, is not overrated by the host of recommendations it has. Our advice is, for all troubled with indigestion, Debility or Bowel Complaints, to get a bottle and try it; our word for it, relief will be experienced.

Blessings to the Invalids who use Dr. Sanford's Invigorator, for it will relieve them of their pains as soon as it is taken into their stomach. Pain and misery cannot exist where the Invigorator is used, for it will surely drive them away, as daylight will banish darkness,—of this there can be no doubt to those who try it, for it carries conviction with every dose taken. Another evidence is the thousands of certificates from those who have been cured by it. Try one bottle—it does not benefit, then we are mistaken.
